

*Principal Hulon Watson meeting with Dr. Mark Hardison*

MTOIS is here to provide the best care possible to our patients. Implant planning can be very daunting and confusing. We have an implant treatment coordinator that will help to guide you through the implant process. Our implant treatment coordinator is here to set up and help organize your appointments and coordinate them with your general dentist. For questions regarding your implant treatment please call **615-893-7736** (Murfreesboro office) or **615-462-7987** (Smyrna office).
